

Notice to Tennis and Pickle Ball Court Members

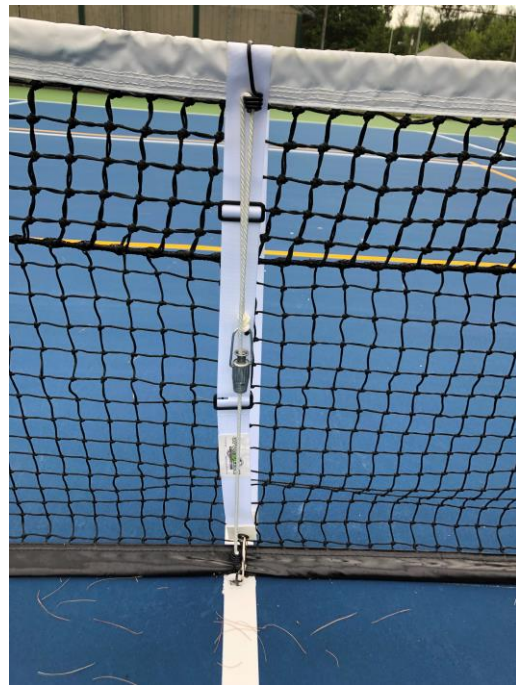

Pickle Ball Players please note:

The net across the court is set at 36" for tennis and is kept at that height by a belt. We will keep an adjuster rope HANGING on the net that will lower the center of the net to 34" for Pickle Ball. Prior to playing Pickle Ball you should hook the adjuster rope to the top of the belt. UNHOOK it before you leave to relieve the pressure on the eye hook. Please DO not adjust the length of the adjuster rope by moving the metal valve in the middle as you will change the height of the net and the rope is already set for a 34" high net 😊

Net set up for Tennis. Note that Pickle Ball Adjuster rope is hanging loosely on

Net set up for Pickle Ball. Note that Pickle Ball Adjuster rope hooked over the top of the belt in the middle of the net.

The code will be printed on your receipt. By virtue of registering for this membership, you are agreeing:

1. NOT to share the combination to the lock with anyone. For the time being, you may bring guests with you. If demand for the court becomes too great from Beekman residents, we will have to ban non-residents, but we want to see how this goes!
2. To understand the operation of the net adjuster as described
3. To lock the court when you leave.
4. Use the court for tennis or pickle ball only.
5. To not permit skateboarders, or bikers on the court.
